Experiment - 13

AIM:

Implement your own ping program

Program:

```
#include <stdio.h>
#include <string.h>
#include <stdlib.h>
int main() {
    int sock;
    char buffer[1024];
    struct sockaddr_in addr;
    struct icmphdr icmp;
    sock = socket (AF_INET, SOCK_RAW,
                   IPPROTO_ICMP);

    if (rock<0) {
        perror ("socka");
        return 1;
    }
    memset (&icmp, 0, sizeof (icmp));
    icmp.type = ICMP_echo;
    icmp.code = 0;
    sendto (sock, &icmp, sizeof (icmp), 0, struct
     sockaddr*) & addr, size of (addr));
     printf ("Replay recieved from %s %s\n"
```

Result:

The program has been executed successfully
